

Republic of the Philippines
Department of Health
OFFICE OF THE SECRETARY

22 November 2017

DEPARTMENT MEMORANDUM
No. 2017-0475

FOR : SECRETARY OF HEALTH OF AUTONOMOUS REGION IN MUSLIM MINDANAO (ARMM), DOH REGIONAL OFFICE (RO) DIRECTORS OF I, II, III, IV-A, IV-B, V, VII, IX, X, XI, XII, XIII, NCR, CAR AND MEDICAL DIRECTORS OF SELECTED DOH-RETAINED HOSPITALS WITH PROGRAMMATIC MANAGEMENT OF DRUG-RESISTANT TUBERCULOSIS (PMDT) FACILITIES

SUBJECT : Conduct of the Molecular Diagnosis of Drug Resistant Tuberculosis Study (TBRO1) for the National Tuberculosis Control Program (NTP) and the Support Needed from Concerned Agencies

The University of California San Francisco (UCSF) and University of the Philippines-National Institutes of Health (UP-NIH), in collaboration with the National Tuberculosis Control Program (NTP) of the Disease Prevention and Control Bureau (DPCB) and the National TB Reference Laboratory (NTRL) of the Research Institute of Tropical Medicine (RITM), will conduct the study entitled "*Improving Molecular Diagnosis in Drug Resistant Tuberculosis (TBRO1)*" with the following objectives: (1) to characterize hetero-resistance and its association with clinical outcomes among cohort of patients with drug-resistant TB and, (2) to identify novel genetic markers that predict and cause extensively drug-resistant TB (XDR-TB) and pre-XDR phenotypes. The target population of the study are patients with confirmed pulmonary multidrug-resistant TB (MDR-TB) by culture-based drug susceptibility test between 2011 and 2017 in selected PMDT facilities. These patients have already been pre-selected through random sampling. Please refer to the attached list.

This memorandum is hereby issued to disseminate the information regarding the roles of NTP, NTRL, selected DOH Regional Offices (ROs), and selected PMDT facilities including selected DOH-retained hospitals for this study.

A. DPCB-NTP:

1. Coordinate the overall conduct of the study among UP-NIH, ROs, and PMDT facilities including DOH-retained hospitals
2. Collect clinical data of patients through the Integrated TB Information System (ITIS), onsite visits and follow up phone calls
3. Schedule onsite visits to selected PMDT facilities and conduct records review for data missed in ITIS

B. RITM-NTRL:

1. Retrieve cultures isolates for all patients included in the study
2. Perform sub-culture and extract DNA from culture isolates
3. Provide laboratory data of patient

C. DOH-Regional Offices:

1. Provide NTP Management Office the contact person, contact number, and complete address of the selected PMDT facilities.
2. Coordinate with and inform the selected PMDT facilities, including their Hospital Administration or Local Government Unit (LGU), regarding the conduct of the study and the schedule of the visit.

D. PMDT Facilities including selected DOH-retained Hospitals:

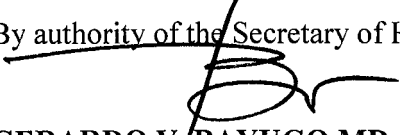

1. Ensure PMDT forms and ITIS records of patients are available, updated, and accurate.
2. Prepare necessary updated and accurate patient records such as but not limited to the Laboratory Register, Drug-resistant TB Register, Drug-resistant TB Treatment Card, and PMDT Screening Form during onsite visit by the NTP.
3. Respond to clarification queries regarding patient records during onsite visit and on phone call or email follow-ups.
4. Inform NTP if patient was transferred out to another facility.
5. Facilitate locating last known address of patient's lost to follow up prior to treatment completion.

Data collection will commence on December 5, 2017 and is expected to end by November 30, 2018. Exact schedule per facility will be sent once finalized.

For further inquiries and concern, please contact **Ms. Evanisa G. Lopez** at evhane22@gmail.com, (02) 230-9626, or (0908) 435-9638.

For information and compliance.

By authority of the Secretary of Health:

GERARDO V. BAYUGO MD, MPH, CESO III
Undersecretary of Health
Office for Technical Services
